Tom

Tom,

THE SGT SHOULD CONSIDER THE FOLLOWING STEPS IN THE PLANET DRIVE,  
CONVENTIONAL SUBSPACE TRAFFIC ORGANIZATION, AND GENERAL PROPRIETARY  
SUBSPACE MEDICAL AND AGRICULTURAL APPLICATIONS:

• (P) IN UV : (Q) IN UV : (E) : (phi) IN UV : (lambda) IN LAVENDER :  
(psi) IN LAVENDER : (square square) IN LIGHT GREEN : (omega), (delta) IN UV.

I TAKE THESE AS SUGGESTIONS THAT THE LINE OF RESEARCH OUTLINED IN THE  
1-29-94 TOM MEMO WILL EVENTUALLY LEAD TO A SOPHISTICATED CAPABILITY  
TO HARNESS THE ENERGY OF THE UNIVERSE. THE RAMIFICATIONS ARE TOO  
COMPLEX TO DEVELOP AT THIS WRITING, SO YOU MAY WANT TO EVALUATE THEM.
