SHOULD THE FERMAT SURFACES SPIN, THE SGT SHOULD DISCUSS THEM. PRIOR TO SUCH AN EVENTUALITY, I NOTICED BLACK AND WHITE SOCCER BALLS IN A ROW ON EACH OF THE THREE PAIRED PARTITIONS IN THE LARISE (ARISE).

8:30 PM - (A)

12:30 AM - AN EXPERIMENT WITH HIGHLY DIRECTIONAL LISTENING DEVICES:
A YOUNG (GIRL) GIRL AND I CARVING HER NAME ON A TREE IN THE WOODS. SHE COULDN'T SPELL. PERHAPS ONE ABOUT SOME YOUNGSTERS HIKING IN THE WESTERN U.S..

AS AN ASIDE, I THINK I MADE A MISTAKE IN THINKING THE RATE AT WHICH ENERGY IS APPLIED SHOULD BE AN INTEGRAL, UNLESS IT IS A PARTIAL DIFFERENTIAL IN THE LIMITS.

12:37 AM - A LIGHT DISC IN FRONT OF MY RIGHT CLOSET DOOR. (✓):
(○) IN NEAR INFRARED.

1:45 AM - (♂⁰) RESSEMBLING A PLANET MOVING QUITE SLOWLY. (HIT),
(W) IS LUMINESCENT GREEN.

2:30 AM - A MILITARY SALUTE.

3:25 AM - WENT TO VISIT A FRIEND. SOMEONE FLUSHED A TOILET AND IT BACKED UP AND RAN ALL OVER THE FLOOR.

4:30 AM - MADE A TWO MILLION DOLLAR DEPOSIT TO MY EX'S SAVINGS ACCOUNT. SAW MY 24' BELGIAN SLEED ON BLOCKS COMPLETELY RESTORED.

6:00 AM - SOME LIGHT PLANES ON APPROACH FOR UNDOING.

I'll leave the analysis to the SGT.
