PM

Tom,

I THINK THE SGT SHOULD CONSIDER THE FOLLOWING STARS:

- (E) : (G) : (D) : (L) : (T) REPEATED SEVERAL TIMES :
A (T) IN CANDY APPLE RED : (RD) : (CDD)

I TAKE IT THIS VALIDATES THE REFINEMENTS TO THE HYPOTHESIS
PROPOSED IN THE 2-16-94 PM MEMO. I ALSO THINK :

- (E) VALIDATES AT LEAST A GENERAL APPLICABILITY TO THE
FIELD OF GENETICS.

ON REFLECTION, I THINK THE STAR :

- (D) SUGGESTS THE USE OF CERTAIN FORMS OF ELEMENTS
INSERTED RANDOMLY FOR THE DRIVE ENERGY.

THE STAR :

- (D) ESCAPES ME

I AM INCLINED TO THINK WHOEVER IS GENERATING THE STARS APPROVES
OF THE TWIN TOWERS APPROACH IN THE CHARTER AS EVIDENCED BY THE STAR :

- TWO COLUMNS AND LIONS IN ANTIQUE GOLD.

YOU MAY WANT TO DISCUSS THIS.
