Tom

Tom,

SHOULD THE FERMI SURFACES STAR, THE SGT SHOULD DISCUSS THEM. PRIOR TO SUCH AN OCCASIONALITY, I NOTICED A BOLIDE ABOUT EIGHT FEET ABOVE BED. BOLD. IT MOVED NORTH AT MODERATE VELOCITY. THE SGT MIGHT CONSIDER THE STAR:

· AN EXERCISE WHERE I WAS TRYING TO MEASURE THE SQUARENESS OF A SHIPS BULKHEAD. (COULDN'T ESTABLISH A RELIABLE REFERENCE LINE AND HAD TO GIVE UP,

AS A RECOMMENDATION TO USE DISTRIBUTIONS AS OPPOSED TO MEASURES; AND THE STAR:

· , EACH TUBE IN BLUE AND WHITE,  IN RED:

AS VALIDATING THE HYPOTHESIS THAT:

· THE AGGREGATION OF APPARENTLY UNRELATED GROUPS OF FILAMENTS USING THEIR HARMONICS IS A VITAL COMPONENT OF INTERGALACTIC TRAFFIC CONTROL AND PLANET DRIVES.

YOU MAY WANT TO EVALUATE THIS.
