

Proposition 14
Scope Organization Span

- I Cluster of quarter pound butter bars, translucent and aligned.

- II Should one grant a capability to collect data by galaxy cross-referenced by Hertzprung-Russell envelope; apply logic summarized by (F_{HRT}) in a branch terminal set dedicated to extended physiologies' cognitive integral in a state of the art communications net spanning these galaxies and record the results, it may be possible to identify a geometric progression of extended organisms able to contribute to higher order species' homeostasis.^{1/2} Proof of this phenomenon should yield an alternative to Baudrillard's frustration stemming from a sense of war filling a vacuum caused by the absence of politics by other means.

- III A large cluster of Brillo pads above the bureau and a pink pearl eraser validated principle and practice.

- IV A thumb pressing a nail to a surface: A sense of very large low aggregate density objects moving in opposing interference paths: A bright key on the rug: A shop specializing in automotive wheels on Northern Blvd.: The photo of me standing against the fender of a '49 Chrysler: A row of thoroughbred horses leaving the starting gate: A couple of astronauts standing on the moon.
