

Proposition 17
Amplify Current National Security Definitions

- I A white golf ball on the bureau:

- II There is precedent to consider national security to be defined as a composite set of capabilities characterized by: state of the art soil conservation; foreign policy which can see through a chaff of artificial stakes; a cost effective public sector. energy independence; a military whose strategy is nimble enough to anticipate parameters of the next, not the last, conflict; fiscal policy; a fully staffed judiciary; etc..

- III Several umbrellas validated principles and practice.

- IV Insects swarmed on a human, feeding until the skeleton was exposed: A propeller's rooster tail: A fork with an inlaid bone handle: Snow tires on a utility vehicle: A rifle with a telescopic sight: Several bicycles: A Civil War cap: A youngster buying molding for a picture frame.
