

Proposition 21  
Systems Refinement

- I A Bon Ami hand of cards.
- II Triad intent to develop revised approaches to: renegade control; objective grouping; multilateral exploration; coaching differentials as a function of substratum; formalizing application of the cognitive integral; the Baudrillard/Magna Graecia experiment; multilateral communications among colonies of beings with extended physiologies; and administering large scale phenomena will not be realized without a conceptual revision to early warning network theory.
- III A very faint cumulus cloud acknowledged requirement.
- IV The back of a crisp white shirt or blouse – in profile – an unidentified person was wearing while bending to a task: An indistinct shelf bracket with a wire clothes hangar hanging from it: (  $\overline{\Sigma}$  ) a spike in the horizontal: The Phi Sigma Kappa fraternity pin: A cluster of ash or hickory baseball bats.
