

Proposition 28
Select Analytical Base for Remedy

- I A volcano:

- II When Daniel Philpott placed 911 in context of the larger fabric of the Westphalian Synthesis he opened the door to alternate remedies. Although this structure is derived from the Middle Ages in Europe, there is no reason why an equivalent phenomenon could not be present in the Far East. Should this phenomenon exist there and be analyzed with the depth shown in the World Politics article, synergism with the Triad might suggest remedial programs.

- III A charcoal cumulus cloud to my right acknowledged potential.

- IV A wooden barrel: Lost my shoes and finished a trip on an underground platform without them: An Ace of Spades: A slingshot.
