

Proposition 7  
Initial Attempt to Define Functional Relationships

- I A row of memo pads in the eastern sky: ( $\rightarrow \text{✂} \leftarrow$ ) coincident with each of ( $\equiv \text{✂} \equiv$ ) flickered into the Cartesians.
- II The sequence of cognitions inherent in ( $[ \text{✂} ] \rightarrow [ \dots ] \rightarrow [ \text{☹} ]$ ) are of the opinion that the staggered substrata are able to accommodate Aristotelian military philosophy and stages of cognition described by ( $\text{✂} \rightarrow \text{✂}$ ). These considerations recognize the frailty of ( $[ \text{✂} ] \rightarrow [ \text{✂} ]$ ) and make the explicit statement that ( $[ \text{☹} ]$ ) will assume responsibility for the well being of ( $[ \text{✂} ] \rightarrow [ \text{✂} ]$ ).
- III A row of lemon chiffon yogurts on long lines and a lemon chiffon yogurt coincident with ( $\text{✂}$ ) followed by a cluster red umbrellas coincident with ( $\text{✂}$ ) and ( $[ \text{☹} ]$ ) coincident with ( $[ \text{✂} ] \rightarrow [ \text{✂} ]$ ) flickered into the Cartesians validating.
- IV A Star Wars Game. When the red flashlight focused on the opposition, it chirped.
