

1/16/94
7:11

Tom,

Should the Fermi Surfaces stir, the SGT should discuss them. Prior to such an eventuality, I noticed a morning stir of (P). The stirs of:

• 1:58 AM 1-16-94 AND (P), (Q) IN ORANGE

(P) OUTLINING A DEFICIENCY IN THE CURRENT APPROACH. I WOULD NOT ABANDON THE APPROACH BUT THINK:

• THE EXISTING PATH AS DESCRIBED MAY STILL HAVE AN INDETERMINATE VARIABLE

I THINK I WOULD RE-EXAMINE THE SECTION ON BOUNDED SUPPORT AND RE-READ Pgs 534 AND 535, VOL 13 OF THE BRIT.
