

Tom

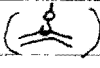

SHOULD THE DENDRITES STIR, THE S&T SHOULD DISCUSS THEM. PRIOR TO SUCH AN
EVENTUALITY, I NOTICED:

A ROW OF P-514, SILENE DEATH: BROWN DETENTION: A RED LAM:
A ROW OF (), BON AMI: A FLICKER OF GOLD ON THE
ICE FOLLOWED BY A BON AMI CLOUD: SEVERAL () COVERED
THIS PARAGRAPH. A MAP ON A TABLE. SOMEONE MOVED A
PENCIL UNDERNEATH IT FROM ONE END TO THE OTHER, RIPPLING
THE SURFACE. WE MAY CONCLUDE:

- THE PROPOSITION IN THE 1-18-98 PDM MEMO
IS VALID AS IS THE ICE TUNNEL STRATEGY

- THE S&T HAS NOT YET PROGRESSED SUFFICIENTLY
FOR FROM CARBON BASED EXISTENCES

() AND () TO VALIDATE

(): BALANCE ON THE HOLOGRAMS WITH IMPROVED
HAZARD

YOU SHOULD EVALUATE THIS.
