Tom,

Should the Fermi Surfaces stir, the SGT should discuss them. Prior to sleep  
an eventually, I noticed a red band under the window of the white  
cattle.

11:05 AM - A SUMMER SCHOOL WHERE SOME SNOW NOSED KID STARTED GIVING ME  
SOME LIP: AN AIR SHOW WITH SOME VERY UNUSUAL AIRCRAFT:  
A COPPER JETZY TRADER WITH A PURPLE FILM OVERLAY OVER THE  
RIGHT REAR WHEEL.

1:45 AM - WAS GIVEN A PROBLEM ON AN ISOMETRIC DRAWING. IT WAS PRETTY  
SLIPPERY, COULD HARDLY READ THE NUMBERS. ANOTHER CHAD, WHO  
I DIDN'T PARTICULARLY LIKE, AND I ANALYZED THE PROBLEM. (WHE)  
TO A TENTATIVE CONCLUSION AND THE PERSON WHO PRESENTED THE  
PROBLEM WENT OFF TO CLEAN UP THE PHOTOGRAPHS. : (X): (R):  
(F): A FLURY TOO FAST TO FOLLOW: (O) THE SPHERE IN  
REFLECTIVE POLISHED BLACK WITH A PEARL LIKE LUSTER.

3:20 AM - (L) WITH THE SENSE THAT (L) OSCILLATED.

6:35 AM - MET CAROL K. AS I WAS WALKING. HAD A (~~BRONZE~~) RING  
THAT WAS TOO TIGHT AND SHE GAVE ME A DROP OF GREASE:  
(I), (II) IN A GREEN VAPOR LAMP. : (E).

I'll leave the analysis to the SGT.
