Turn,

THE SGT SHOULD CONSIDER THE FOLLOWING STIRS IN CONTEXT OF THE PLUMET
DRIVE:

- $(\infty) : (S) : (\text{circle}) : (\infty) : (\text{circle}) : (\infty) : (\text{circle}) : (SS) : (\text{circle}) :$
 $(\infty) \text{ IN QUARTZ} : (\sqrt{c}) : (\text{circle}, 10^3) : (\text{circle}) : (\text{circle}) :$
 $(\text{circle}^{\infty}) \text{ SPHERES IN QUARTZ} : (\text{circle}) : (\infty).$

THESE CONTAIN A WEALTH OF SUGGESTIONS FOR THE DRIVE, SOME OF WHICH
MAY BE:

- ABANDONMENT OF SYMMETRY/ DIFFERENTIATED APERTURES AS
A METHOD OF EXPRESSING BOUNDARY CONDITIONS MAY RESULT
IN BREAKTHROUGHS.

FURTHERMORE, ALTERNATIVES ARE SUGGESTED. THE GENERAL CLASS SEEMS TO BE:

- USE OF DIFFERENTIAL TRANSFORMS IN THE LIMITS OF THE
INTEGRALS AND THE JACOBIANS USED TO FORM THE TENSORS.
- USE OF DUAL JACOBIANS
- USE OF THE TAURUS TO REPRESENT THE BOUNDARY CONDITIONS
BETWEEN SUB, SUPER, HYPO, HYPER, AND BASIC HARMONICS.

THE PROBABLE RESULTS THESE TECHNIQUES SHOULD YIELD MAY BE SUGGESTED
BY THE STIRS:

- ASSEMBLING A 2x4 WALL. PICKED OUT VERY STRAIGHT WOOD FOR
THE TOP AND BOTTOM RAILS. : A PALE ROSE PEARLESCENT BOTTOM. :
A GALVANIZED STEEL TUBE WITH A TILK MARK IN THE MIDDLE.

YOU MAY FIND FURTHER MATERIAL IN THESE SUGGESTIONS ON DEEPER
EVALUATION.

PM

THE BALANCE OF THE STARS APPEAR TO RELATE TO THE LITIGATION.
