TMM

Tom,

THE SGT SHOULD CONSIDER THE FOLLOWING STARS IN CONTEXT OF THE PLANET DRIVE:

- A BLACK TRUCK WITH (77 88) IN ORANGE ON THE DOOR.: (⊕)
- (3) IN GREEN.: THEY HAD A VEHICLE WHICH COULD REMAIN STATIONARY WITH RESPECT TO THE GROUND AND ROTATE TO MANIPULATE WHAT APPEARED TO BE A SATELLITE.: (06000):
- (90): (∞) IN RED THAT RAN THE LENGTH OF THE UNION.: (∞)

I AM WILLING TO TAKE THIS AS ENCOURAGEMENT TO DEVELOP THE HYPOTHESIS IN THE 6-21-94 TMM MIND. A FEW POINTS BEAR MENTIONING:

- THE STAR: "THEY HAD A VEHICLE WHICH COULD REMAIN STATIONARY WITH RESPECT TO THE GROUND AND MANIPULATE WHAT APPEARED TO BE A SATELLITE" APPEARS TO BE A SUGGESTION TO POSITION AN ACTIVE TARGET IN A GEOSYNCHRONOUS ORBIT TO GENERATE THE SENSORS FOR THE FINAL ORBITAL TRIM. THIS APPROACH SEEMS TO BE ENFORCED BY THE STARS (06000) AND (77 88) IN ORANGE ON THE DOOR OF A BLACK TRUCK.
- THE STAR (∞) IN RED APPEARS TO BE VALIDATION OF THE SUGGESTION THAT VERY LARGE SCALE FILAMENT AGGREGATION AND PROCESSING USING THE TECHNIQUE OF LINKING THE FILAMENT GROUPS BY INCLUDING THE KGS SETS IN THE LIMITS OF ONE OR MORE SETS OF MULTIPLE INTEGRALS WILL BE USEFUL IN THE PROPRIETARY TECHNOLOGY FOR THE PLANET DRIVE.

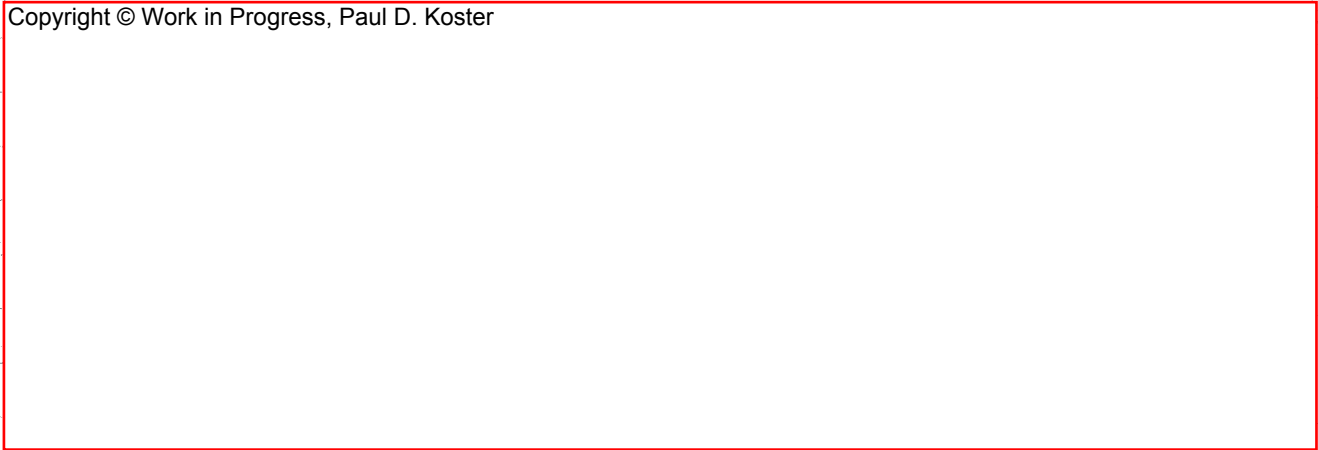

IF SO, THIS WOULD BE A CONSOLIDATION OF A SIGNIFICANT IMPROVEMENT. YOU MAY WANT TO EVALUATE THIS.
